

4-WAY FLUX

INTERNAL ENGINE CLEANING DEVICE

DESCRIPTION

All-in-one professional unit for cleaning several internal systems in the vehicle.

INTAKE CLEANING

- Suitable for both diesel and petrol vehicles
- Keeps the complete EGR/intake system clean
- Avoids completely blocked EGR valve, intake manifold, throttle valve, ...
- Dissolve gum, lacquer, tar, carbon and other deposit
- Makes engine run smoother
- Improves fuel economy

Extra products needed: **I-FLUX FLUID**

Optional for diesel: **In & Out Diesel**, **Full Detox** OR **Ultimax Diesel**

Optional for petrol: **In & Out Petrol**, **Ultimax Petrol**

INJECTION CLEANING

- Suitable for both diesel and petrol vehicles
- Keeps the injectors and pump clean
- Avoids mechanical damage to the injection system
- Increased power, improved dynamics of engine
- Greater fuel economy
- Smoother engine running, less noise and vibrations
- Improved power and efficiency
- Soot catalyser to keep Turbo, EGR, CAT and soot filter free of soot

Extra products needed: **X-Flush Diesel** / **X-Flush Petrol**

DPF/EGR CLEANING

- Cleans and removes soot and carbon deposits from the porous honeycomb structures present in the DPF
- Prevent repeated build-up of soot in the particle filter
- Non-flammable, water-based liquid
- Metal-free cleaning liquid that leaves no residue
- Restores proper functionality of the Diesel Particle Filter
- Improves engine & DPF reliability
- Can be used to clean EGR valve and Turbo with extra connector.
- Extra products needed: DPF Flush – Step 1, DPF Flush – Step 2 and NEXGEN DPF Coating (Step 3 in cleaning).

Optional for diesel: **In & Out Diesel**, **Full Detox Diesel** OR **Ultimax Diesel**

INSTRUCTIONS

Read carefully the manual.
