

IN & OUT PETROL

DEEP CLEANING FUEL ADDITIVE

DESCRIPTION

IN & OUT PETROL CLEANER is a professional product of a new generation with a double field of action in DI and IDI petrol engines:

- Cleans actively the entire fuel and injection system.
- It will effectively deep clean the combustion chambers, exhaust system, turbo charger, particle filter and the catalytic converter.

BASIC BENEFITS

- Optimization of engine performance.
- Smoother engine running.
- Fuel savings.
- Reduction of smoke and CO₂ emissions.
- Improved engine reliability.
- Increased power and dynamics.
- Trouble-free functioning of the catalytic system.

PROPERTIES

- Cleans and protects injectors, valves and the entire fuel system intensively.
- Protects the fuel system from corrosion.
- Protects the fuel from oxidation and degradation.
- Lubricates injection system and pumps.
- Protects the intake system and EGR-valve from deposits.
- Restores the proper functioning of the turbo compressor.
- Higher octane number.

APPLICATION

For daily performance and preventive use.

For all types of petrol engines (DI and IDI). The treatment doesn't require any disassembly.

It is highly to clean the fuel and injection system each 30.000 km or at least once a year.

E10 fuel compatible.

DIRECTIONS FOR USE

Add the content (1L) to the tank containing 30L to 45L of fuel. Drive the vehicle at high load and high revs (>4000 rpm) in order to heat the engine and exhaust system.

TYPICALS

Physical state:	liquid
Colour:	dark brown
Odor:	characteristic
Melting Point:	< 0 °C
Initial boiling point and range:	55 °C < V < 78 °C
Flashpoint:	< -18 °C

PACKAGING

1l can (6 x 1l/carton)
